CAREER OBJECTIVE

Third-year Computer Science student with hands-on experience in Java, web development, MySQL, and cloud fundamentals, and a strong interest in AI-assisted software engineering. Comfortable using AI tools to accelerate coding, debugging, and learning new stacks quickly. Seeking an entry-level Associate AI Full Stack Engineer role where I can build production-grade applications, grow under experienced engineers, and contribute to meaningful, real-world products.

EDUCATION

B.Tech — Computer Science Engineering

A J Institute of Engineering and Technology, Mangaluru

CGPA: 8.24 / 10.0

4th Year, 7th Semester (2023 – Present)

Pre-University (12th) — PCMB

Udupi Jnanasudha PU College, Udupi

Percentage: 92.67%

SSLC (10th)

St Cecily High School, Udupi

Percentage: 78.56%

TECHNICAL SKILLS

Programming

Java (basic), Python (basic)

Frontend

HTML5, CSS3 (basic)

Database

MySQL — schema design, CRUD, relational queries, basic SQL

Cloud

Microsoft Azure (basic) — core cloud concepts

Tools

Git, GitHub, version control workflows

AI Tools

Proficient with AI coding assistants for development, debugging, and learning

PROJECTS

Bus Reservation System

Java | Swing | MySQL

- Engineered a full-featured desktop GUI for end-to-end bus ticket booking and cancellation.
- Built an admin dashboard for managing routes, schedules, and real-time seat availability.
- Designed a normalized MySQL database with complete CRUD operations for passengers and bookings.
- Implemented data validation and error handling to ensure transactional integrity.

Personal Portfolio Website

HTML5 | CSS3

- Designed a responsive multi-section portfolio to showcase projects, skills, and contact info.
- Applied basic CSS layout techniques for cross-device rendering.
- Applied clean UI/UX principles — clear typography hierarchy, consistent spacing, and intuitive navigation.

LANGUAGES

English — Professional Proficiency | Kannada — Native
